PRODUCT!**

The “ALTEK 2076” is a perfect addition to the very reliable “Industry Standard” Canon PC-70™ Plain Paper Reader/Printer. The “2076” Carrier is interchangeable with the normal PC 70 Fiche Carrier it makes using both Fiche and Roll Film a snap. The simple film threading path allows the occasional user ease of operation. With the addition of the “2076” to your Canon PC 70, you may now use 16mm, 35mm, as well as 3M Cartridge Film Formats.
